# COMPANY OVERVIEW

## “ ABOUT US

Twareat Medical Care Company is an integrated healthcare operator in Saudi Arabia, delivering end-to-end medical services across urban, industrial, remote, and offshore environments. We combine clinical excellence with operational readiness to protect workforce wellbeing, ensure compliance, and sustain business continuity for our clients. Our portfolio spans clinic operations, occupational health, emergency response, medical transportation, home care, and mobile healthcare solutions—supported by governance, accredited practices, and specialized capabilities that scale to the complexity of each site.

### Vision

To become a global leader in providing healthcare and medical service solutions to our patients and clients.

### Mission

To improve patient and client satisfaction by creating premium value through excellence in every healthcare and medical service solution we offer.

### Technology Consulting

- **Patient & Client Focus:** consistent, efficient, high-quality care
- **Safety:** protecting patients, clients, and staff in clinical and non-clinical environments
- **People:** an enabling workplace that supports growth, accountability, and professionalism
- **Quality:** disciplined delivery aligned with our mission, governance, and standards

4.

## GOVERNANCE, LICENSURE & ACCREDITATION

We operate in alignment with national and sector requirements, supported by recognized licensure and accreditations, including:

- Ministry of Health (MOH)
- CCHI Licensed
- CBAHI Accreditation (medical operations)
- Approved Healthcare Provider (HCP) by Johns Hopkins Aramco Healthcare (JHAH)
- Accredited by the Saudi Red Crescent Authority (medical transportation and ambulance services)

5.

## WHAT WE DELIVER (ONE-STOP HEALTHCARE SOLUTION)

Twareat Medical Care Company provides a one-stop healthcare solution designed around client needs—flexible, scalable, and performance-driven.

### OUR MODEL SUPPORTS:

- Operational continuity in complex environments
- Compliance with sector and client requirements
- Workforce wellbeing and risk reduction
- Measurable outcomes through structured reporting and program governance

# 7. SERVICE MODELS

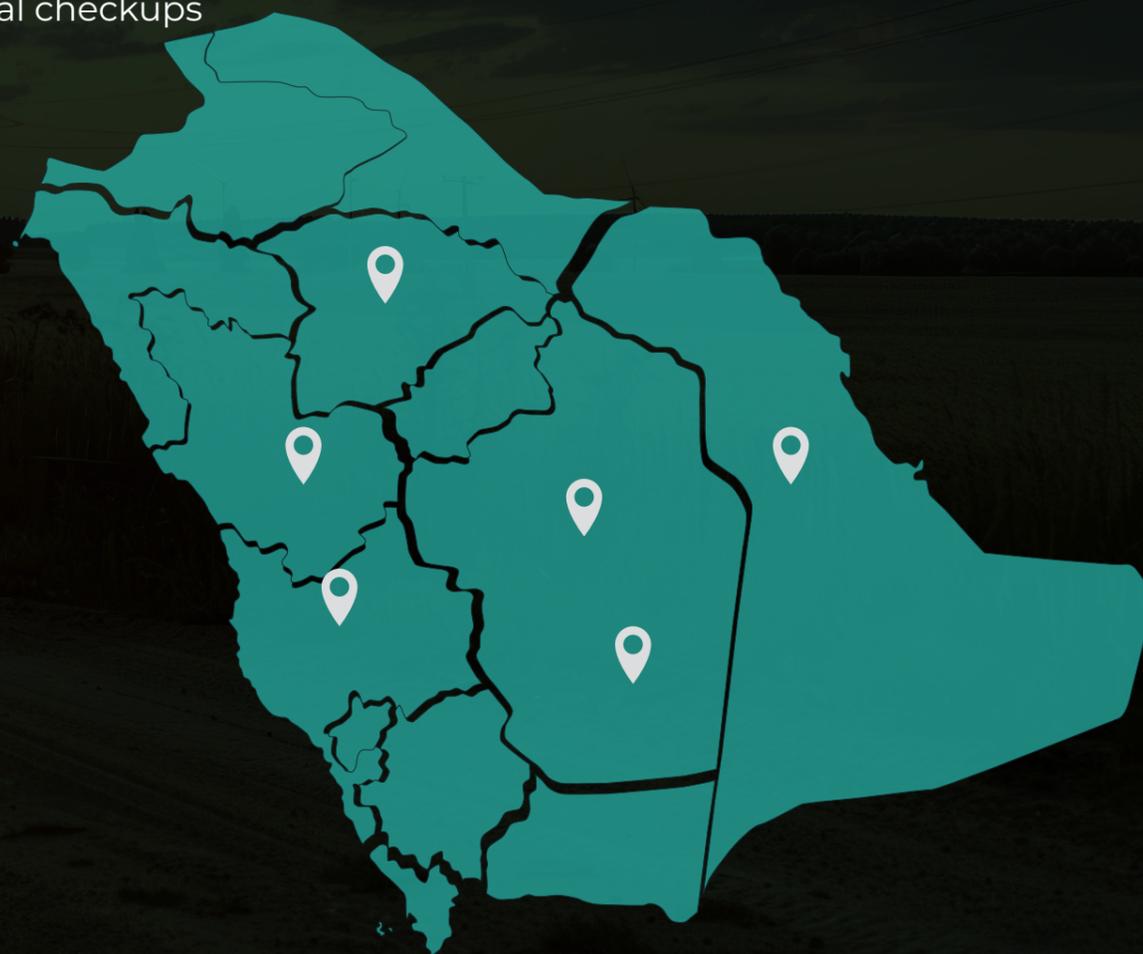

(TMC HEALTH OPERATIONS)

## 7.1 REMOTE AREA CLINICS (RAC)

When healthcare access is limited by remote operations, rapid response and continuous coverage become critical. Our RAC program is designed to reduce operational risk and protect workforce safety through reliable onsite care and remote medical support.

### Core Services:

- 24/7 onsite healthcare coverage and ambulance support
- Emergency medical services, urgent care, and injury care
- Prevention programs to reduce workplace injuries and absenteeism
- On-call medical support and assistance
- Periodic, pre-employment, and annual medical checkups
- Health & safety assessments
- Immunization programs
- Infection control programs
- Point-of-care laboratory and radiology testing
- Disaster management readiness
- Telemedicine services
- Occupational psychiatric support
- Education and training services

## 7.2

### INDUSTRIAL HEALTH CLINICS

Industrial environments require proactive clinical risk management to protect people and minimize disruption. We deliver site-specific solutions built around hazard analysis, medical planning, and rapid response capability, helping maintain productivity and compliance.

#### Typical Program Components:

- workforce health surveillance and fitness-for-work support
- incident response readiness and escalation pathways
- occupational health screening and periodic assessment programs
- clinical KPI reporting aligned with client governance requirements
- 24/7 onsite healthcare coverage and ambulance support
- Emergency medical services, urgent care, and injury care
- Prevention programs to reduce workplace injuries and absenteeism

## 7.3

### MEDICAL CENTERS & URBAN CLINICS

Our urban clinics serve local and commercial communities, functioning as hubs for preventive, promotive, and basic curative care. Our medical centers provide broader diagnostic and specialty coverage to support clients when advanced services are not available within onsite clinics.

## 8. MEDICAL CENTERS CAPABILITY SNAPSHOT

### TMC Health Medical Center

(Al Khobar)

“ Founded in 2016, TMC Health Medical Center pioneered a North American-style urgent care model in Al Khobar, supported by diverse specialties and consultant-level coverage. The center delivers comprehensive primary care, medical consultations, laboratory services, and community-focused healthcare programs.

### Jubail Medical Center

(Extension)

“ To expand access and standardize quality, TMC established an extension in Jubail City, an integrated medical center designed to deliver advanced services efficiently and in alignment with high clinical and operational standards.

### Specialties & Services:

- Internal Medicine
- General Medicine / Family Medicine
- Pediatrics
- Gynecology
- ENT
- Psychiatry
- Dental Services
- Emergency (ER)
- Occupational Health
- State-of-the-art laboratory
- Radiology
- Pharmacy
- Ambulance Services
- Home Care
- Expats Screening

## 9.

# Medical Transportation & Ambulance Services

Twareat Medical Care Company provides medical transportation and ambulance services across Saudi Arabia, delivering rapid, safe, and clinically governed patient transport for routine, urgent, and critical cases, aligned with regulatory requirements and built around patient safety.

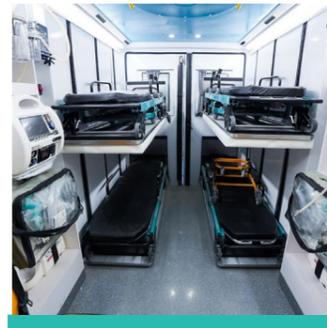

### SERVICE CATEGORIES:

Ground Ambulance:  
 - bed-to-bed transfers  
 - continuous monitoring of vital signs  
 - specialized medical crews for higher-acuity cases

### AIR AMBULANCE:

- ICU-level configuration (mission-dependent)
- specialized medical crew and clinical coordination

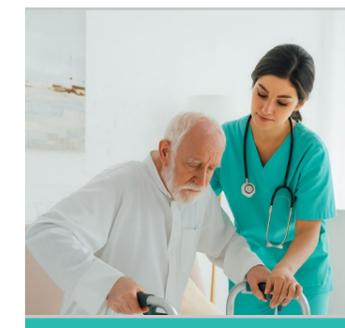

### SPECIALIZED TRANSPORT (CRITICAL CARE):

- mechanical ventilators
- ECMO readiness (case-dependent and subject to approvals)
- specialized medical team support

### EVENT MEDICAL COVERAGE:

- onsite medical teams
- immediate emergency response
- structured coverage planning and escalation pathways

### HOME CARE:

- chronic condition support
- elderly care
- post-operative follow-up

## INNOVATIVE CONVERSION DIVISION (IC)

Innovative Conversion is a division of Twareat Medical Care Company, delivering end-to-end solutions for transforming standard vehicles into fully equipped ambulances and specialized mobile healthcare units.

Aligned with Saudi Vision 2030, the division supports the development of modern, responsive emergency medical services and accessible mobile healthcare across the Kingdom and the GCC.

### 11.

#### PRODUCTS & CAPABILITIES

- Integration of advanced medical equipment and communication systems
- Manufacturing of mobile clinics and rapid-deployment healthcare units
- Manufacturing mobile pharmacies (secure storage and temperature-controlled compartments)

#### SUPPORTED PLATFORMS (EXAMPLES):

Toyota HiAce variants (high roof / extended / 4x4), Mercedes-Benz Sprinter, GMC Savana, Ford Expedition, Ford Transit, Peugeot Boxer.

12.

## FIELD HOSPITAL (RAPID-DEPLOYMENT HEALTHCARE)

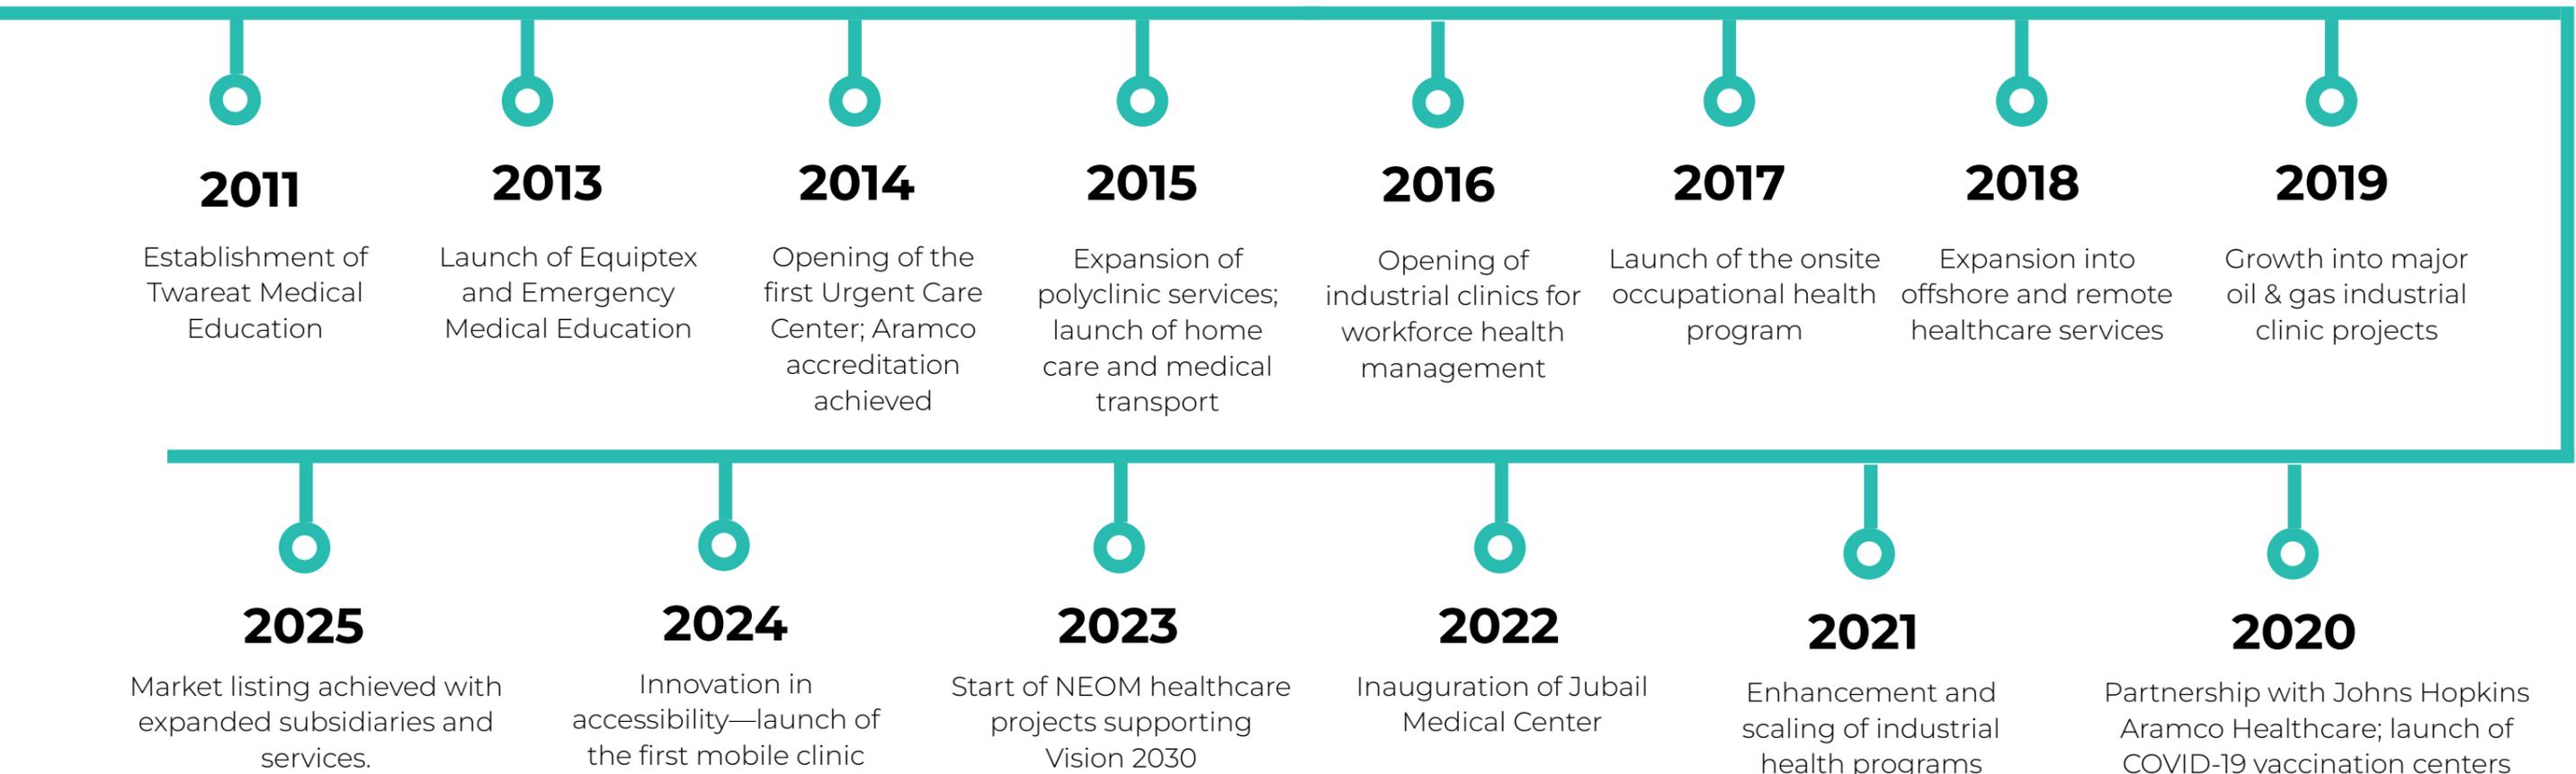

Twareat Medical Care Company provides end-to-end Field Hospital solutions covering, planning, installation, commissioning, and full operations.

We deliver all aspects required to establish and run a field hospital as a turnkey service, ensuring rapid readiness, clinical safety, and sustained performance in remote locations, industrial environments, emergencies, and high-demand events.

### Typical Use Cases

- Remote and offshore projects requiring immediate clinical readiness
- Industrial sites and mega projects needing temporary or surge medical capacity
- Disaster response and public health emergencies
- Mass gatherings and major events requiring on-site medical coverage
